PROFESSIONAL SUMMARY

IIT Alumnus and **Senior PM at Axis Bank** with 3+ years in fintech, owning digital payments across consumer and MSME platforms. Core outcomes: **38% conversion lift** on the bill pay funnel, **3X transaction growth** across 2M+ Citi-migrated users, and **industry-first** multi-biller authentication. Independently ships **AI-native products**: a Claude-powered Indian equity analyst, a RAG-based reading companion, and a PM job-search automation pipeline with prompt caching for cost control.

WORK EXPERIENCE

Axis Bank, Mumbai

July 2023 – Present

Senior Product Manager

- Owned the **Bill Pay product stack** across Axis Mobile and NEO for Business, driving **Rs.6,000 Cr in annual GMV** across retail, MSME, and corporate segments — one of the highest-GMV products in the Axis digital portfolio.
- Redesigned the **customer onboarding journey** to embed UPI setup within the registration flow; lifted **UPI activation from 36% to 54% (50% relative improvement)**, converting the majority of new registrations into active UPI users by month one.
- Drove a **38% improvement in bill-to-payment conversion** through funnel analysis and elimination of a mandatory registration gate, recovering abandoned-transaction volume at scale.
- Conceptualised and shipped **Bulk Pay and Bulk Autopay — the first single-authentication multi-biller payment flow in Indian banking** — collapsing a multi-step process into one authenticated action and establishing a defensible product moat in the bill payments category.
- Scaled Bill Pay across **three customer profiles** (Credit Card, NEO for Business, Corporate), achieving **20%+ activation per segment** within the first month; drove **26% biller registration growth in a single month** (400K to 500K+) via a staff referral program, building a repeatable **low-CAC acquisition channel**.
- Led **Bill Pay and UPI onboarding for 2M+ Citi retail banking users** during the Axis-Citi migration, achieving a **3X increase in digital payment adoption** (23K to 72K monthly transactions) within six months — the largest customer migration in Axis Bank's recent digital history.
- Launched a **milestone-based cashback loyalty program** driving 2X payment frequency per user, then restructured it to **cut burn rate by 60%** while holding engagement flat; owned the **Credit Card Offers page** driving a **14% increase in quarterly card spends** among active CC holders.
- Owned **GrabDeals (Rs.250 Cr GMV)**, Axis Bank's card-linked merchant rewards portal; built an **automated reconciliation system using Power Automate and Copilot agents**, cutting manual reconciliation effort by **50% of team manhours** and reducing settlement turnaround.

PROJECTS

DailyPages — AI Reading Companion · Solo Project

2026

- Set **depth of engagement per session** as the north star metric; mapped user signals across 7 reading moments and sequenced a **6-phase roadmap** with hard scope gates to protect delivery timelines.
- Selected **Claude API over cheaper alternatives** for long-form comprehension quality; established **per-user AI spend guardrails** ahead of monetisation and preserved a mock-data demo path to decouple design and engineering timelines.

Stalk the Stock — Indian Equity Analyst · Solo Project

2026

- Diagnosed **explainability as the primary adoption risk**; redesigned output from an opaque score to a **four-tier form status** with a plain-English rationale card, giving users a clear basis to agree with or override the model.
- Engineered **graceful degradation into the product spec**: shipped a rule-based fallback for LLM timeout scenarios; scoped promoter pledging and intraday data to a **Phase-2 roadmap** rather than blocking launch.

SKILLS

Core PM	Product Strategy & Roadmap, Go-To-Market, KPI Ownership, A/B Testing, API Integration & Prototyping, Stakeholder Management, Agile, MVP Development
AI & Automation	Claude API, Claude Code, Prompt Engineering, LLM APIs, Agentic AI, Copilot, Power Automate, Figma Make, Claude Design
Analytics & Dev	SQL, Python, Advanced Excel, Amplitude, CleverTap, Google Analytics, Mixpanel, Postman, Figma

EDUCATION

B.Tech. Mechanical Engineering — Indian Institute of Technology (IIT), Ropar

2019 – 2023

AWARDS

Digital Banking Warrior Award — Axis Bank Recognised for outstanding delivery of digital payment solutions
